

TRIPOD HEAD QUICK RELEASE SYSTEM

- Loosen the levelling system adjustment knob
- Flip the pan/safety lock knob up to release and remove the levelling system.

TIP | Using a dual axis ball head (such as the VEO BH-250S) on the lightweight platform will help you get a level seconds using the ball joint and allow you to pan/reframe your shot using the top axis

- Retractable spiked feet
- 2 Easy set & easy clean leg locks
- 3 30mm legs that deliver a solid 25kg load capacity
- 4 Levelling system control handle (±15° tilt | 360° pan)
- 5 Easy set leg angles (23°, 50° & 80°)
- 6 Platform loosening lock
- 7 Platform safety lock release
- 8 Lightweight platform
- 9 Levelling platform with 75mm diameter base
